

# the Next Generation has arrived...

NOW WITH

The most technically advanced pool cleaner of its type in the world. Designed and developed with the benefit of over 30 years experience. Well established in the USA and European markets, it is the new benchmark for pool cleaners in Australia.

The PoolCleaner™ – the name says it all.

# The PoolCleaner™

## The 2 Wheeler

...the one  
that won't  
get stuck  
in corners

### Features

- **Self Adjusting Turbine Vanes**

The PoolCleaner™ has patented, self-adjusting turbine vanes to maximise power from the water flow. This feature means The PoolCleaner™ can operate at low suction and low pressure. The unique folding vanes of the turbine allow for the easy passage of large debris through the cleaner.

- **Patented Steering System**

The PoolCleaner™ has a unique, patented steering system that enables it to clean pools of all shapes and sizes. The left wheel is set to reverse at intervals, turning the unit in different directions so it doesn't get stuck in corners.

The **2 x Suction PoolCleaner™** travels 2.5 to 3.0 metres before turning (turns range from 90 to 450 degrees).

- **Robust Tyre Treads**

The PoolCleaner™ has patented tyre treads that ensure excellent climbing ability and the manoeuvrability to handle any obstacle, making it ideal for all pool shapes and surfaces. Special tyres are available for tiled pools.

- **Adjustable Skirt**

The patented adjustable skirts have rollers that permit The PoolCleaner™ to maintain optimal suction, even when faced with the most difficult obstacles.

- **Easy to Install**

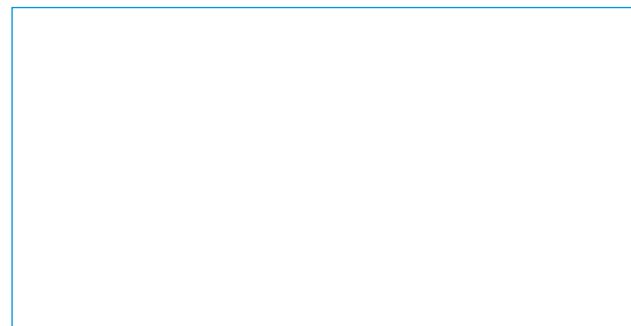

The PoolCleaner™ can be up and running in just a few minutes by following the easy instructions. Everything you need is in the box – no tools or additional components are required.

- **Warranty**

The PoolCleaner™ comes with a 3+3 warranty (3 years full and 3 years pro rata).

*Made in the USA by Poolvernuegen, Santa Rosa, California.*
